5th International Arthroplasty Conference

Feedback from 2011 Conference

I would like to commend you on the growth of the conference that has taken place in just one year. Your efforts to make this an outstanding educational and scientific experience are obvious, and the growth of the conference in just one year is something you should be congratulated for, and be proud of.

James Rosneck
Cleveland Clinic, Ohio, USA

We had a wonderful time and enjoyed Egypt a lot. Sharm El Sheikh is one of the most beautiful places I have ever been to and I hope I can visit again. The Conference was fantastic, It had great variety and covered a lot of different topics. It was great to learn from other colleagues around the world about how they approach different problems in arthroplasty. It was a great opportunity for me to present and share some of the current projects we have been working on at the Cleveland Clinic.

Carlos Higuera
Cleveland Clinic | Ohio, USA

In my humble opinion, I believe it was a very rich conference. the topics were world class . something I hear usually in major conferences like Hospital for special surgery and AAOS. I agree the attendees were distracted by the beautiful resort. Keep on the good work and I truly believe you and your assistants did an outstanding job of selection of lectures, place food, organization etc. God Bless and I fully support your attempt to bring the world to Egypt.

Sam Hakki
Bay Pines, Health Care Florida, USA

I just wanted to thank you for the invitation to Egypt. I had a great time! We need to organize some of patient specific instruments meetings together at Sharm.

Emmanuel Thienpont
University Hospital Saint Luc, Brussels, Belgium

At the beginning, like some other speakers, we had some second thoughts about how many new thoughts could be presented in arthroplasty in a year time, yet it was very rich in its innovations and new topics particularly about the Patient Specific Cutting Templates that you have founded. It was very exciting with its different applications in different global centers and in different surgeons' hands.

Ahmed Basyuni
Kent, UK

Attending it for the second time in a row, as an organizer and speaker this time, I can not claim much credit in this success compared to the magnificent and extensive efforts you have put in it, in motivating all the attendants and in putting too many ends together.

A member of the organizing committee

5th International Arthroplasty Conference

Invited Speakers

A group of experts in arthroplasty from Cleveland Clinic, North America, Europe, Egypt & Middle East

Topics

- ✳ Alternatives to arthroplasty
- ✳ Conventional TKA & THA
- ✳ Unicompartmental knee arthroplasty
- ✳ Patellofemoral & bicondylar & MIS
- ✳ Infection & complications
- ✳ Revision TKA & THA
- ✳ Workshops: TKA & THA (tips & tricks)
- ✳ Update on other joints (shoulder, ankle,...)

Special Events

- ✳ 2st Symposium on Custom_Made Cutting Guides for TKA
- ✳ 8th Middle East Symposium on CAOS (Navigation & Others)

Call for Abstracts

Deadline for abstract submission: 30 November 2011

Submit abstract online www.arthroplasty2012.egyorth.org
or by E-mail info@egyorth.com

Submit abstracts in English in less than 500 words

For scientific inquiries, please contact conference Chairman
